

As past clients of Devrite Construction, when choosing a builder for our new home, the choice was easy! We knew that Devrite would once again be patient, professional and honest when working with us. Our first project with Devrite was the renovation of our home in Booragoon. This was a complex project which took great attention to detail on Devrites' part. We were thrilled with the result and the quick timeframe in which the project was completed.

Our second project will involve working with Devrite to build a brand new home in Ardross. We have every confidence in the knowledge, professionalism and ideas of the Devrite team. The trust we have developed working together makes our decision to build a brand new home that much easier.

Thank you for your support in the past, we happily look forward to another great result'.

Hannah and Alan Thompson
