Devrite Homes
880A Albany Hwy,
East Victoria Park 6100

Dear Ron and Jay,

RE: CONSTRUCTION OF 136B GLENDOWER STREET, PERTH

I would like to thank you for building my lovely new designer home. From the beginning discussions about design, construction and building costs, right through to the finished product, I found the process very enjoyable and relatively easy. I have been in there for 4 weeks now and absolutely love it!

Having built before with another large project builder, where there were time delays, no regular communication and constant lengthy battles to get anything done properly, this was totally the opposite experience with Devrite Homes!

Ron and Jay made every effort to ensure that things were done to a high standard and within the time frame. As my house is on a small, very narrow 6.6 metre wide block in Perth, there were times when things got a bit 'tight', but Ron always made sure the tradesmen got it done to his high standard!

From the slab going down to handover, it took approximately 13 months, which was within the contract time frame. The allocated 'provisional sums' in the contract also came in under the initial estimate, which was a great relief!

I would have no hesitation in recommending Devrite Homes to anyone who is serious about building a new quality finished home with no hassles and a smooth informative process from beginning to end.

Yours sincerely,

Heidi Bruce
