East Victoria Park

Dear Ron and Jay

We are so happy in our new home. Not only have people (and tradesman) commented on how great it looks, but it is a pleasure to live in. The passive solar design is working well, and the functionality of the space has made things a lot easier in managing our son's special needs. In particular, your clever installation of the ceiling hoist from bed to bath has made a big difference. Other unique features, such as the roof window and stonework, have added style and value to the home.

We would like to thank you for insisting on high quality standards and the extra effort you made to ensure good communication throughout the build. Using Devrite has been a personalised and rewarding experience and we would highly recommend you to others looking for a truly professional, quality builder.

Best regards,

Nicola and Peter Netherway
